(DE) HINWEIS: Kinderwagenhersteller führen zuweilen Änderungen in Ihren Baureihen durch und die Kompatibilität wurde noch nicht bei allen Modellen durch ein akkreditiertes Prüfinstitut bestätigt. Darum kann nicht hundertprozentig gewährleistet werden, dass die Babyschale bei allen Modellen und Adaptern passt. Prüfen Sie bitte deshalb direkt bei Ihrem Fachhändler vor Ort die Funktion und Passform der Adapter. Beachten Sie auch immer die mitgelieferten Bedienungsanleitungen! Die durchgeführten Institutprüfungen erfolgten nach europäischer Norm EN 1888:2012.

(EN) NOTE: Stroller manufacturers sometimes have changes in their series and the compatibility has not been confirmed for all models by an accredited testing institute. We can not guarantee one hundred percent that the infant carrier fits on all models and adapters. Therefore please check directly with your local dealer for the function and fit of the adapter. Note also the appositive instruction manuals! The realized lab tests were performed according European standard EN 1888:2012.

(FR) Note : les fabricants de poussette changent parfois leur production en série et dans ces cas, la compatibilité n'a pas pu être encore confirmée par un institut de test accrédité. Ainsi, nous ne pouvons pas garantir à 100% que les sièges coque sont utilisables sur tous les modèles et les adaptateurs. C'est pourquoi nous vous recommandons de toujours tester avant l'achat, chez votre revendeur, le siège coque ainsi que ses fonctions une fois celui-ci installé sur la poussette avec les adaptateurs. Veuillez également toujours consulter le manuel d'utilisation ! Les tests réalisés en laboratoire sont faits selon la norme européenne EN 1888:2012.
